Caution: Some text formatting within citations may be lost or altered when copied into word processing programs or Web-based applications such as e-mail services. Marine biology: Function, biodiversity, ecology. The text has a conversational writing style and it serves as an educational tool for students at various levels of preparedness."eÀÀÀ Sabine Alshuth, Nova Southeastern University"A comprehensive and logically organized marine biology textbook that would work well for a marine biology/ecology course that has a majority of natural science students enrolled. Marine Biology, Fifth Edition, succeeds in covering the topic in a comprehensive manner, while neither oversimplifying it nor adding too many specialized details.
